KEENE IDEAS®

Doorway Transition Detail Between Rooms with and without Quiet Qurl®

1. Transition detail to be used in doorway transitioning from a room with Quiet Qurl (I.e. Hard Surfaces) to a room without (I.e. Carpeted Finish).
2. In addition a strip of reinforcement may be added to the 12" of Quiet Qurl extended into the non-matted room.

Notice to Specifiers, Contractors & Architects:

These technical drawings are offered as representative results with laboratory conditions. Field results will vary depending upon many factors outside of Keene Building Products™ control including but not limited to installation, lighting design, plumbing design & methods of construction. Keene Building Products™ Incorporated cannot assume any liability for the manner of installation of its products, which manner is left to the buyer in conjunction with the buyer's construction documents.

QUIET QURL is a component in an overall floor/ceiling assembly. Its performance is affected by every other component and the likelihood of achieving code compliance is contingent upon many other trades including framers, plumbers, drywall contractors to name a few. Developers and general contractors are responsible for building properly and testing field performance as soon as possible in order to assure the reliability of the project.

WARNING: Laboratory tests are not a guarantee of field performance because of the issues noted above and many other design errors that may occur. Please consult a professional acoustical consultant to assure plans are proper and that the floor/ceiling assembly can perform to expectations.
